

En brandvägg är bara så bra som sin konfiguration

Använder vi de licenser och funktioner vi köpt?

Är alla lämpliga funktioner påslagna?

Är de korrekt konfigurerade?

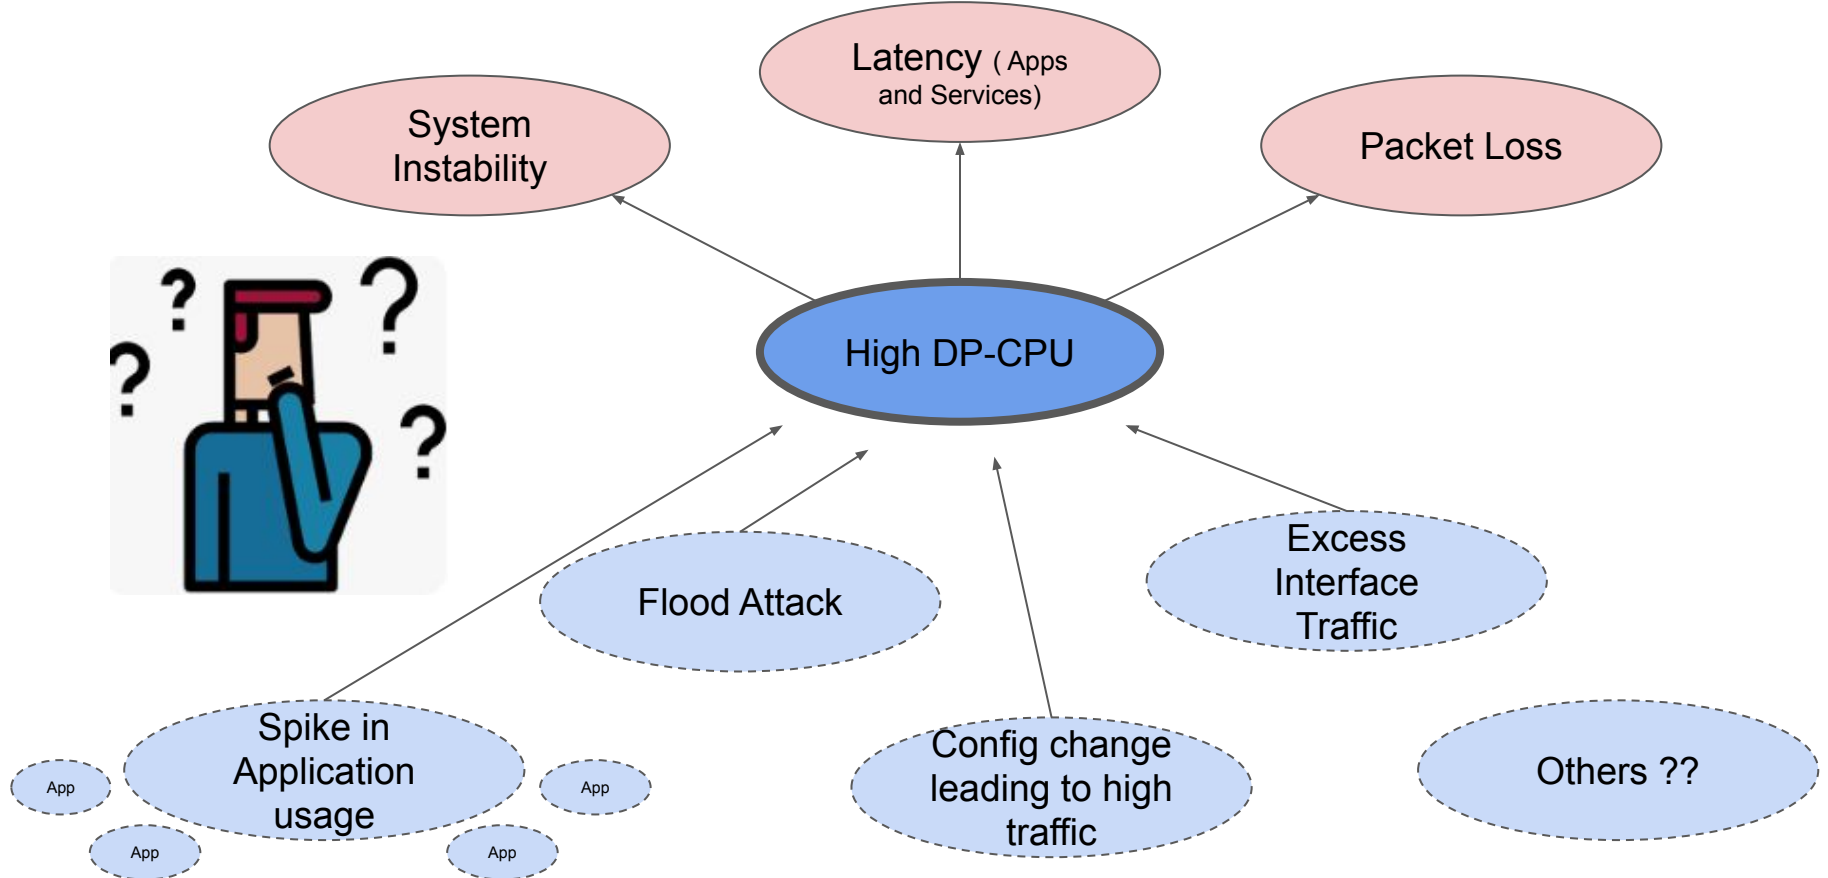

Kan vi mäta detta? Över tid?

Är vårt regelverk onödigt öppet?

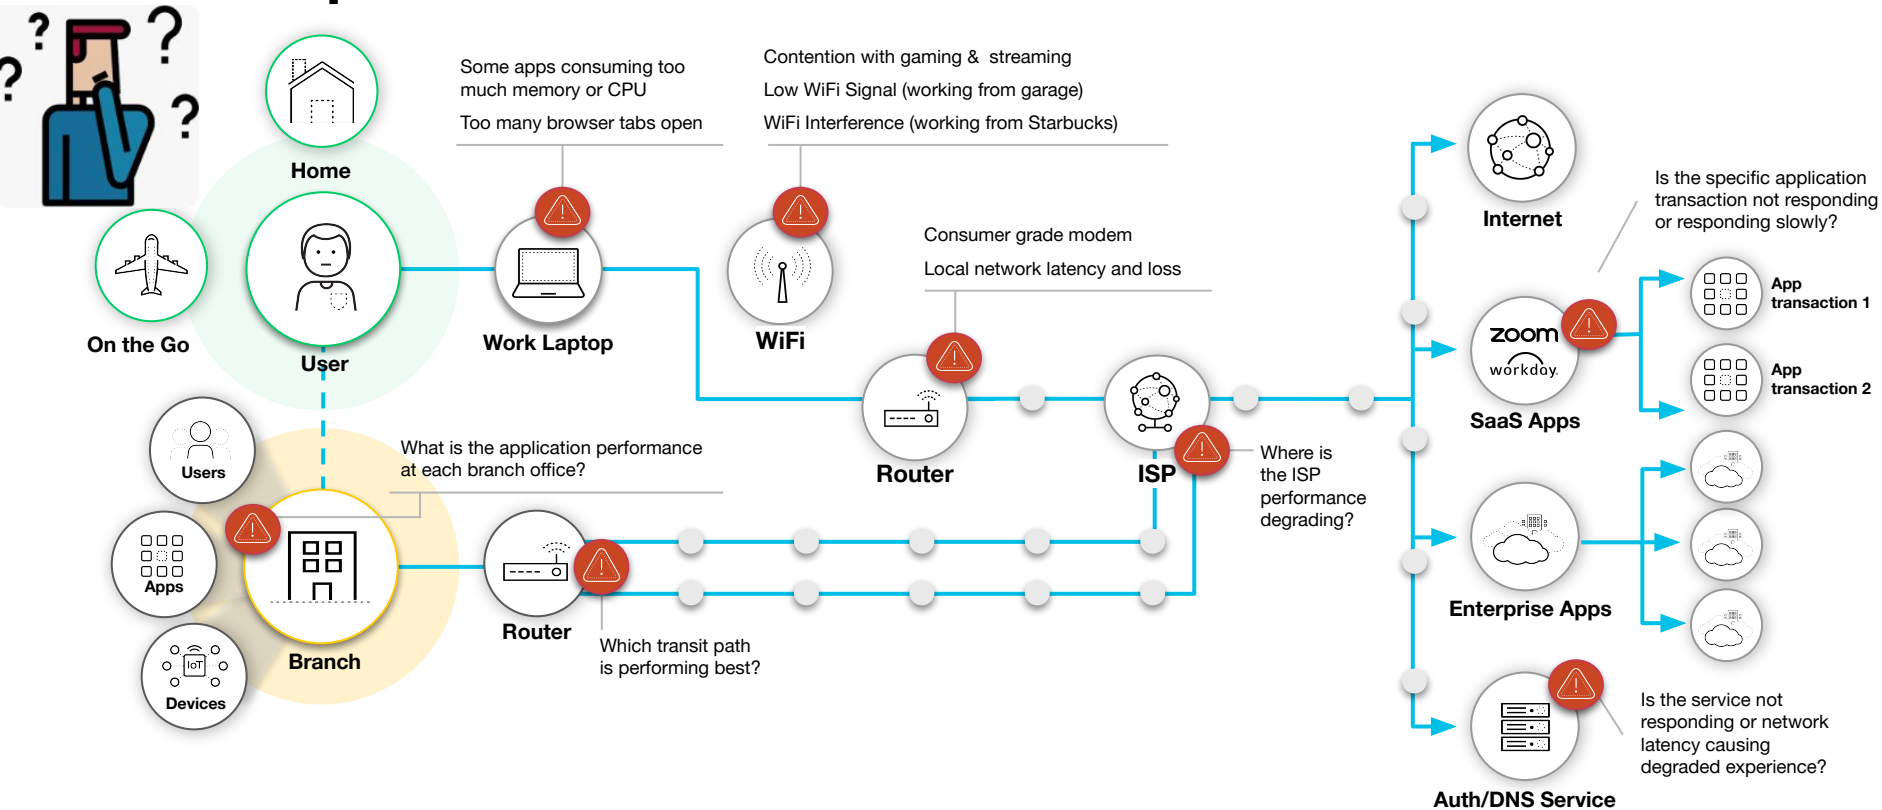

**Hur hjälper vi nya (och gamla) kollegor konfigurera på vårt
standardiserade konsekventa sätt?**

Hur jämför vi vår miljö mot compliance och andra krav? Egna krav?

Operationell hälsa - Hur minimerar vi störningar

Hur mäter vi användarupplevelsen? Hur hjälper vi användare som har problem?

The Industry's first AI-Powered Zero Trust Management and Operations Solution

STRATA™ CLOUD MANAGER

BY PALO ALTO NETWORKS

AI-Powered Zero-Trust Management and Operations

Prevent Network Disruptions

Strengthen Security in Real-Time

Enable Simple & Consistent Network
Security Management and Ops

Cloud-Delivered
Security Services

Hardware Firewalls

Software Firewalls
Cloud NGFW

SASE

Data, loggar och management i molnet

- Hur och vart lagras vårt data
- Vad händer med vår verksamhet om molnet försvinner - kontinuitet

Data Privacy Datasheets

Pros and Cons - SCM vs Panorama

SaaS vs VM

Cloud vs On-Prem

Logging

Big Data och AI funktioner

Data residency och regulatoriska krav

Integrationer - Plugins

Cloud Identity Engine

Versioner, uppgradering och underhåll

Migrering

Must be purchased on full “HW/SW Estate”

Not available on individual firewalls

SCM Essentials + SLS	SCM Pro
10% of Base HW 10% of Base SW Credits	30% of Base HW 30% of Base SW Credits

Strata Cloud Manager Essentials

Command Center and Activity Insights

Best Practices Reporting

Health Insights and Alerts

Configuration and Policy Management

Strata Logging Service - Optional Add-On
(Paid)

Strata Cloud Manager Pro

Command Center and Activity Insights

Best Practices Reporting

Health Insights and Alerts

Configuration and Policy Management

Strata Logging Service
Includes 1 year of retention

AI-Powered ADEM

Real-Time, Inline Best Practices

AI-Powered Policy Analysis

AI-Powered Operational Health
Failure Prediction, Probable Cause Analysis, Capacity Analyzer, Anomaly Detection

Software Upgrade Analysis and Recommendations

Upcoming - Panorama Managed NGFW Config Migration

Migrate NGFW Configs from Panorama

Step 1 Overview
Understand how SCM config works

Step 2 Upload Configuration
Upload and check unsupported features

Step 3 Check Unsupported features
Some features are not supported in SCM

Step 4 Select NGFWs to Migrate
Map Panorama DG to Folder

Step 5 Map Templates to Folders
Map Panorama template to Folder

Step 6 Prepare Migration
Migrate Configs to SCM

Step 7 Review Config Diff

Step 8 Confirm and Finish

Select the NGFWs to Migrate

Objects (such as address and EDL) are attached to the Global folder as snippets. Policies are imported to individual folders. The Shared Device Group is mapped to the All Firewalls folder.

Panorama
